# ABOUT US

The main idea of **Silvesto** is to provide its investors with innovative and efficient methods to grow their capital and earn rewards based on the use of its **diversified** and advanced investment technology.

Since 2019 our team of professionals have been researching, working and developing a unique ecosystem which is all brand new on the market so it can fulfill the different needs of all types of **investors**.

Our experts hold patents in the field of investment technologies, which are used by **Silvesto** in the financial market.

Based on the fact that putting money into one financial instrument has its own drawbacks, **Silvesto** united the sixth most profitable business tools like **Gold, Cryptocurrencies, Startups, Forex Market, Arbitrage, Stock Market** into one technology.

# MISSION AND GOALS

**SILVESTO** provides an opportunity for every type of investor on the market to diversify their investment in its unique system that unites all of the major financial instruments in the world. We create conditions and rely on our revolutionary investment technology which allows investors to make money even in times of crisis or market instability.

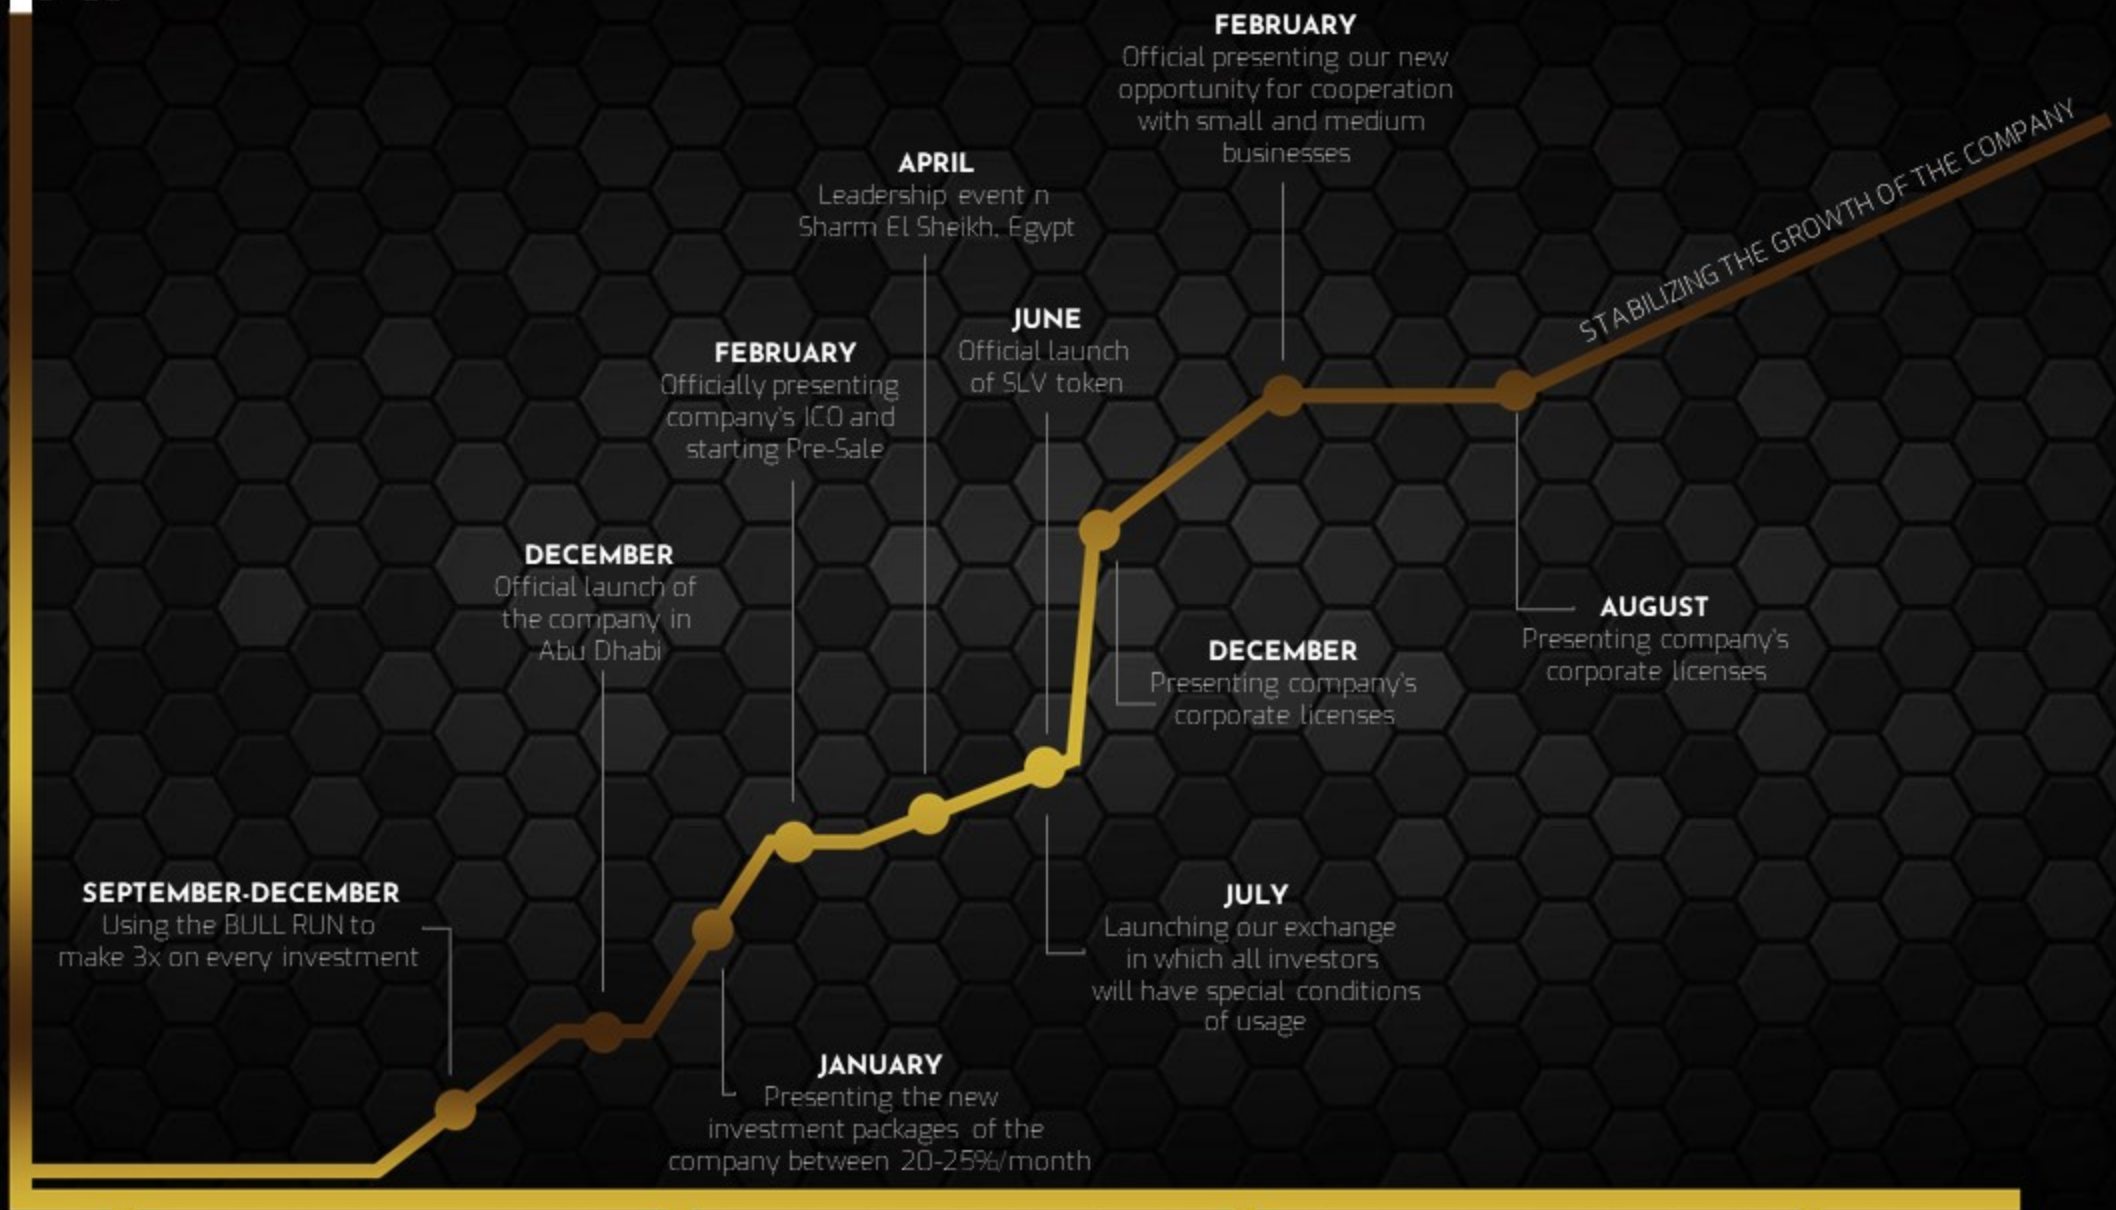

We desire to be as close as possible to our investors by helping them out with questions, supporting them in their journey with our investment company whilst building their own success using our services.

**OUR TECHNOLOGY** unites all of the major financial components in order to create the completed investment instrument. Therefore, its ideology aims to provide opportunity for **maximum profitability** on the investment as well as to implement security for its investors' money. **SILVESTO** is a reliable partner for long term cooperation which will help entrepreneurs **multiply their capital**.

**Full transparency** is one of our biggest priorities! Our constantly developing team ensures the achievement of the best possible results in fields that have been proved to be **the best on the market** such as **Cryptocurrencies, Gold, Arbitrage, Startups, Stocks** and **Forex market**. Its development team has planned **a step-by-step process** which will help the stabilization of the company's growth.

# ROADMAP

GROWTH

# DIVERSIFICATION

# GOLD

1970-2020

Average annual ROI  
(Return Of Investment) is **10%**

**SILVESTO** makes a profit for its investors of 0.8% per month of **GOLD**

## MARKET CAP

The Market Capitalization of Gold is currently around **\$11.323 trillion**.

This value was obtained by multiplying the current gold price (\$1,780 per ounce) with the world's above ground gold reserves (201,296 tonnes).

## BENEFITS OF INVESTING IN GOLD

- Low risk and immediate profits
- Gold can protect your money from inflation risk
- Always in demand which makes it easy to buy and sell
- Strong ecosystem which makes it almost impossible to deteriorate over time
- Over time, fiat currencies - including the US dollar tend to fall in value against gold

# CRYPTO

2011-2021

Average annual ROI

(Return Of Investment) of Bitcoin is **891%**

CRYPTO

**SILVESTO** makes a profit for its investors of 14% per month of **CRYPTO**

## MARKET CAP

The Market Capitalization of CRYPTO is currently around **\$2.4 trillion**

Bitcoin first started trading from around \$0.0008 to \$0.08 per coin in July 2010.

## BENEFITS OF INVESTING IN CRYPTO

- Significant potential for capital growth
- Decentralized financial system
- Better payment structure
- 24/7 access on your funds and transactions
- Quick asset transfers
- Increased confidentiality on transactions
- Low transaction fees
- Strong encryption techniques

# ARBITRAGE

Average annual ROI  
(Return Of Investment) is up to  
**120%**

ARBITRAGE

**SILVESTO** makes a profit for its investors of 10% per month of **ARBITRAGE TRADING**

## DEFINITION

**ARBITRAGE** takes advantage of the price difference of certain assets buying it cheaper from one place and selling it more expensively to another at the same time.

Arbitrage crypto trading is another financial instrument which is used to gain hundreds of potential profits.

## BENEFITS OF INVESTING IN ARBITRAGE TRADING

- Low risk and immediate profits
- Speed, large sums of money and huge volumes of crypto assets are involved in arbitrage trading
- Safe way to invest your money
- Additional security for the investor's money
- Quickness and efficiency of the deals made by trading robots

# STARTUPS

Average annual ROI  
(Return Of Investment) is **26,4%**

STARTUPS

**SILVESTO** makes a profit for its investors of 2,2% per month of **STARTUPS**

**Worldwide**, there are about 305 million startups, created in a year. 1.35 million businesses out of those startups are tech related. Monthly there are 25 416 666 startups created which makes 847 222 per day in the whole world.

Only 30% of those startups are becoming successful and 70% of them fail in the first 2-3 years. Our team has found the best niches in today's startups which guarantee that with the right strategy and performance success is in their hands.

## BENEFITS OF INVESTING IN STARTUPS

- Long term investment with future perspective
- Great potential for growth and profits
- Great opportunities for growth and profits
- Buy-out potential

# FOREX

Average annual ROI  
(Return Of Investment) is **between 20-30%**

FOREX

**SILVESTO** makes a profit for its investors of 2% per month of **FOREX**

## MARKET CAP

The Market Capitalization of Forex is currently around **\$2409 trillion**

The forex market is run by a global network of banks, spread across four major forex trading centres in different time zones: London, New York, Sydney and Tokyo. Because there is no central location, you can trade forex 24 hours a day.

## BENEFITS OF INVESTING IN FOREX

- Highly liquid market
- Forex market isn't correlated with stocks
- No centralized exchanges
- Access to tools that will help you with your trades
- Range of risk management tools
- Well known as one of the biggest markets with the most opportunities

# STOCKS

Average annual ROI  
(Return Of Investment) is **12%**

STOCKS

**SILVESTO** makes a profit for its investors of 1% per month of **STOCKS**

## MARKET CAP

The Market Capitalization of Stocks is currently around **US\$95 trillion**

The market cap of the United States was almost four times than that of China in 2020, making up a large share of the world's total market capitalization.

## BENEFITS OF INVESTING IN STOCKS

- Capital growth
- Good way to stay ahead of inflation
- Reliable income stream
- Easy to buy and easy to sell
- Higher returns over short term
- It allows you to take advantage of the growing economy
